$255,105.00

TERMS AND CONDITIONS:

1. This quote and attached terms and conditions must become a binding part of any sub-contract.
2. A purchase order and 10 working days notice must be given prior to start of work. This quote shall remain valid for 30 days from date of actual bid opening, unless otherwise agreed upon.
3. TERMS: Due and payable within 30 days from date of installation and/or as per Business and Professional code 7108.5 and Public contract code 10262.5 (for progress payments) and/or as per Public contract Code 7107 (for retention due).
4. All change orders must be approved by agency/owner prior to work being performed by Veridico.
5. Excludes any insurance requirements in excess of Caltrans Standard Specifications. Additional insured and/or waiver of subrogation requests will be an added cost.
6. Splitting offered bid item quotes **may be considered**. Please call Tim Anenson at (707) 317-0002 to discuss splitting the bid item quotes prior to the Caltrans submittal deadline.

ASSUMPTIONS:

1. **Work Area Monitoring for Air** will be conducted under the direction of a Certified Industrial Hygienist (CIH). All travel, perdiem, materials, supplies and laboratory costs are included in the daily rate. Reports will be prepared and signed by a CIH as called for in the Special Provisions. Veridico assumes a MINIMUM air monitoring duration of five (5) days. The Prime Contractor can multiply the daily Work Area Monitoring rate of $1,895.00 per day by the actual activity days to calculate a lump sum total for the project if more than five (5) days. A mobilization charge of $350.00 will be charged for each mobilization to the site for non-consecutive monitoring events.
2. **Work Area Monitoring for Soil and Waste** will include two (2) visits to the site to collect pre- and post-soil samples at eight (8) locations each visit. Soil samples will be analyzed for lead and chromium pursuant to the Special Provisions. One waste sample will be collected and analyzed for lead and chromium by TTLC, STLC, and TCLP as also required by the Special Provisions. The waste sample will be collected during the post-soil sampling visit; no separate sampling date is included. Provided pricing includes all travel, perdiem, materials, supplies and laboratory costs.
3. Storm water sampling and water quality sampling will be conducted by the Prime contractor. The daily rate provided by Veridico for each includes an initial training by a Veridico QSP for up to two (2) field personnel and supply and maintenance of required testing equipment, in addition to data consolidation in preparation for reporting.
4. Veridico assumes that lead will be the only analyte for airborne monitoring.
5. Job Site Management assumes a project duration of 270 days (field work), or 54 weeks of on-site field work.

   54 weeks x $325.00/week = $17,550.00

   This is a weekly rate for Veridico to document required SWPPP compliance by completing Caltrans forms 2030 and 2023 by a QSD/P. Veridico will work with your field staff to assess site conditions each week; no site visits are included. Pre-, during and post-rain event site inspections are not included but will be billed at the Job Site Management rate if required.

6. No other plans, reports, monitoring or permits are included.
7. Contractor to provide completed SWPPP questionnaire (supplied by Veridico upon notice of award) prior to start of work.
8. The Contractor-Supplied Biologist rate assumes all daily activities required of the biologist can be completed in an 8-hour shift, including travel. Reporting, monitoring, and/or training that cannot be conducted during the 8-hour shift (including travel) will be conducted during the following shift and billed as an additional day.
9. The SWPPP, the ACP, and the LCPs include one (1) revision for the quoted bid. Additional revisions will be billed at $125.00 per hour.
10. Print-ready electronic draft and final copies of plans and/or reports will be provided so hard copies can be produced; no hard copies will be provided by Veridico.

Veridico is a certified DBE contractor (No. 39572) with a number of associates that have supported Caltrans projects for many years. We have the necessary certified personnel to support your efforts on this project and we look forward to providing you our highest level of project support. Please don't hesitate to contact me directly at (707) 317-0002 or at tim.anenson@veridicogroup.com if we can provide anything further.

My Very Best Regards,

EXCLUSIONARY DEVICES
FOR
ROOSTING BATS & NESTING BIRDS
FOR THE
SOUTH FORK AMERICAN RIVER BRIDGE
Contract No. 03-0F3104
ID No. 0300000078

Mitigate Environmental Impacts and PLAC Compliance for Roosting Bats

Exclusionary devices will be in all gaps, joints, openings and crevices identified as locations of potential roosting habitat by the Caltrans Biologist; currently identified locations include gaps, joints, hinges and crevices at or near abutments 1 and 8 and piers 2 through 7. The existing bridge is 31.5 feet wide and 504.33 feet long with six hinges and eight joints. Exclusionary devices will be in conformance with Caltrans Standard Specifications and consist of:

- Foam backer rods of appropriate diameter placed lightly end to end and or,
- Expanding spray foam

Mitigate Environmental Impacts and PLAC Compliance for Nesting Birds

Exclusionary devices will be in conformance with Caltrans Standard Specifications and as follows:

- 3/4 inch mesh, polyethylene bird netting draped and enclosing the entire underside of the existing bridge deck and steel beams, from abutment 1 to abutment 8
- Bird netting shall be suspended from 1/16 inch diameter galvanized steel (or plastic coated steel) braided cable or 1/4 inch diameter nylon braided rope, which shall run the length of the bridge on either side, outside the guardrails along the top of the chamfered edge of the deck, affixed to the guardrail posts at intervals not to exceed 8 feet and be sufficiently taught to prevent sagging
- No splices in the cables or ropes shall be utilized for the initial installation, except as to create loops for fastening to the bridge; all splices for fastening loops shall be accomplished using properly sized galvanized steel splicing hardware
- Bird netting shall have a minimum 6 inch fold tucked under the cables or ropes on each side and be affixed to the cables or ropes through both sides of the fold, along each side of the deck at intervals not to exceed 2 feet with netting manufacturer recommended fasteners
- Bird netting shall be affixed tightly around the steel rocker assemblies atop each pier with the cable or rope and manufacturer recommended fasteners
- Bird netting shall be affixed to each abutment, held in place by means of 1 x 4 inch recycled plastic boards bolted to the abutments, with bolt intervals not to exceed 3 feet
- Any seams of the bird netting shall be transverse to the length of the bridge and be folded and secured with durable fasteners, cable, rope, or zippered in a manner which prevents any unintentional separation or opening of the seams

- At each abutment, on both sides of the bridge, the bird netting shall have panels (minimum 10 feet by 10 feet) with zippered or otherwise operable closures on the top and both sides of the openings which can be readily opened to allow egress for birds or other wildlife that have become trapped inside the exclusion

- Under the bridge device will be used and will require lane closures

- Traffic control measures will be required to complete this project and are not the financial responsibility of Western Exterminator Company

Cost: $87,900

C. GUARANTEE

All bird control work performed by Western Exterminator Company includes a ***one-year warranty*** (excluding trapping, baiting, vandalism, sanitation, and weathering of materials).

D. TERMS

This proposal is provided for the sole purpose of developing a bird control program with ***Western Exterminator Company*** and ***Myers & Sons Construction, LP,*** and shall remain confidential.

Fitzgerald Formliners: Quotation Terms and Conditions

If you have any questions pertaining to the quote, please contact the sales representative is listed on the first page of the quote.

GENERAL

Fitzgerald Formliners Quotation Terms and Conditions are attached and incorporated herein by reference into the accompanying customer price quotation. By issuing a purchase order to Fitzgerald Formliners, the customer expressly acknowledges that their purchase is subject to the Fitzgerald Formliners Quotation Terms and Conditions and in the event of a conflict between the Fitzgerald Formliners Quotation Terms and Conditions and the customer's purchase order terms and conditions, the Fitzgerald Formliners Quotation Terms and Conditions will prevail.

Quotation Expiration: Quotes are valid for 30 days unless otherwise noted in writing.

Quotation Preparation Assumptions: Quotations are prepared based upon information/data supplied by the customer to Fitzgerald Formliners. Quotations are subject to change upon contract award and the determination of final take-off quantities and any new information/data or a material change to information/data utilized to develop the quotation.

Take-off Quantities: Contractor is responsible for calculating all final take-off quantities. In the event that the customer requests Fitzgerald Formliners to provide take-off quantities for an order and Fitzgerald Formliners agrees to provide take-off quantities, Fitzgerald Formliners takes no responsibility and makes no warranty, expressed or implied, that take-off quantities they supply to the customer are sufficient to meet the needs of the customer and irrespective of where take-off quantity information originates the customer retains full and sole responsibility for verifying i) take-off quantity accuracy and ii) quantities ordered by the customer meet their requirements.

Shipping & Handling: Estimated shipping & handling (if included) cost to the designated zip code specified by the customer is based on a single shipment and subject to change. Shipping and handling will be invoiced on the date of shipment and will be based on currently prevailing carrier rates, the required freight mode and the actual destination for the shipment.

Order Lead-Times: Customer order lead-time begins once an order is workable. An order is deemed workable once a written purchase order and a signed order acknowledgement is received from the customer and all deposits and customer approvals are received. Customer approvals may include, but are not limited to, drawings, specifications, mock-ups and patterns. Order changes initiated by the customer after an order is received by Fitzgerald Formliners may result in additional charges and an extension to the order lead-time.

Deposits: A deposit of 100% is required unless an open terms credit account has been set up with Fitzgerald Formliners, in which case, deposits will be modified according to credit history and background. A minimum 50% deposit is required on all custom orders before any production begins, unless other terms are set and agreed upon prior to final contract signing and acceptance of customer's purchase order.

LIMITATION OF LIABILITY

Fitzgerald Formliners shall not be liable, in contract or in tort – including without limitation negligence, strict liability or otherwise – for loss of sales, revenues or profits; cost of capital or funds; business interruption or cost of downtime, loss of use, damage to or loss of use of other property – real or personal; failure to realize expected savings; frustration of economic or business expectations; claims by third parties, or economic loss of any kind; or for special, incidental, indirect, consequential, special, punitive or exemplary damages arising in any way out of the performance of, or failure to perform, this Agreement, even if Fitzgerald Formliners could foresee or has been advised of the possibility of such damages. The Parties expressly agree that these limitations on damages are allocations of risk constituting, in part, the consideration for this agreement, and also that such limitations shall survive the determination of any court of competent jurisdiction that any remedy provided in these terms or available law fails of its essential purpose.

FITZGERALD FORMLINERS

Fitzgerald Formliners Product Information

FORM RELEASE AGENT
The application of a form release agent is critical to the performance of the formliner. Water based release agents are highly recommended to ensure duration and longevity of form liner. Refer to the application guide for this product.

MOCK-UP PANELS
If custom mock-up panels are required, additional charges may be incurred, including material and shipping charges. Contractor to supply all pertinent information regarding mock-up requirement, size, and quantities prior to final contract award.

GRAYLASTIC
This pattern is manufactured in extended use elastomeric urethane, is factory mold bonded to ¾" plywood and is edge sealed on four sides. **Expected use is up to 100 reuses.**

VAC-U-FORM
This pattern is manufactured in plastic and may require wood backing to prevent deflection from concrete pressure. **This material is available in single-use, 6-8 use, and up to 15 use options.**

VINYLOK
This pattern is manufactured in Extruded Styrene or ABS plastic. VinyLok formliner is designed to be snapped together, hiding any vertical seam, and cut to the length required. These features create a seamless finish. Note: Please add approx. 2-3" to length required to allow for shrinkage and trim to fit.

Lengths greater than 12' may incur additional freight costs.

The first three lengths are at no charge. A $50.00 set up fee is required for each additional length.

PLEASE NOTE- When using Vac-u-Form or VinyLok, thermal expansion and contraction is normal and occurs with all thermal formed form liners. For additional information please refer to application guidelines for installation instructions.

BRICKMASTER CORNER BRICK INFORMATION:

MODULAR, 11301(corner), Single use BrickMaster – Corners, each piece is 2.25 linear feet and it holds 10 corner bricks; panels measure 12" wide x 27" high. This is based on a standard running bond.

UTILITY, 11303 (corner)Single use Brickmaster – Corners, each piece is 2 sq.ft. and it holds 6 corner bricks; panels measure 12" wide x 24" high This is based on a 1/3-2/3 running bond.

System Application Guideline

INTRODUCTION

This Application Guideline has been published to ensure proper use and installation of ***Fitzgerald Formliners*** GrayLastic products. It is recommended that all personnel involved with the use of ***Fitzgerald Formliners*** GrayLastic products read this Application Guideline.

GrayLastic formliners are made from a two-component urethane formulation and are factory mold bonded to 0.75" plywood in a one-step process. Mold bonding is a more durable method than simply gluing to plywood. Standard liners are typically available in 4' widths with lengths up to 24' or more, depending on the pattern. GrayLastic formliners are ideal for cast-in-place or precast applications where 20 to 100 pours are required of the liner material.

CARE AND HANDLING

When not in use, formliners should be protected from moisture and sunlight by being elevated off the ground and covered with a tarpaulin. Most materials degrade when exposed to intense sunlight for extended periods of time. Degradation will affect the life of the liner, and in some cases, cause discoloration of the concrete surface.

In addition, a surface temperature in excess of 190° F may cause permanent thermal distortion and diminish by 70-80% all physical properties of the formliner.

Once attached to the formwork, formliners should be stored on edge to prevent liner damage.

TRIMMING ELASTOMERIC FORMLINERS

Should trimming of an elastomeric liner be required, the slower the cutting tool used, the easier the liner will be to trim. A crosscut handsaw provides the best trim on elastomeric liners. If a blade type circular handsaw is used, as many as five or six shallow, slow cuts should be made across the path of the trim. Extreme care should be taken to keep the saw blade from binding or from melting the material. Lubricating the blade with WD-40 during the trim may assist the cut.

If the liner is to be butted against a rustication strip or reveal, the blade angle should be set so that the liner is cut at the same angle as the reveal. These operations should be performed with the liner securely clamped to a steady workbench to prevent any "chatter". Positioning the line of the cut with approximately a 3-degree bow in the liner will also assist the trim.

Proper ventilation practices must be followed when cutting formliner material.

ATTACHMENT TO FORMWORK

GrayLastic formliners are mold-bonded to 0.75" plywood. Mold-bonding the plywood does not eliminate the need for a form system facing. The use of a ganged forming system is recommended. GrayLastic formliners can be attached directly to the forming system by screwing or bolting to the face of the liner or through the back of the form using 1/4" diameter fasteners. Fasteners should be placed at 12" centers on all perimeter edges of the formliners and 18"-24" on center throughout the field. When the liners are expected to be removed and re-attached to the forming system several times over the life of the liner, attachment from the back of the form may be the best method. This will make locating the attachment screws easier and avoid repeated marring of the surface of the liner.

RECOMMENDED METHOD TO ATTACH GRAYLASTIC FORMLINERS

1. **Level and square the formwork so that proper alignment of the liner can be made. Dimensions should be marked so that edges, patterns and joints are square.**

2. **Working with one sheet at a time, position the formliner against the formwork so that edges, patterns and joints are square.**

3. **Screw the liner to the formwork with screws spaced approximately 12" on center around the perimeter and 18" to 24" on center throughout the field. Tek drywall screws work well because they are self-drilling and easy to install.**

FORM RELEASE AGENT

The application of a good quality, reactive-type form release agent prior to the first use and after each subsequent re-use is critical to the performance of the formliner. Clean the formliner after each pour to remove any loose debris. The form release agent must be worked into the surface of the liner to ensure adequate coverage. Release agents should be sprayed on the liner as close to the time of concrete placement as possible. Minimize exposure to contaminants, dust, etc.

A water-based release agent works well for either single-use or multi-use plastic or extended-use elastomeric urethane formliners. ***Do not use solvents or petroleum-based form release agents. They attack both plastic and elastomeric urethane liners.*** It is recommended that the form release agent be tested against a small area on the form side of the liner for compatibility. Should the test area become tacky, the release agent is not compatible with the liner material and cannot be used. Consult with your form release manufacturer for specific information, such as coverage rates, drying time and compatibility.

FITZGERALD FORMLINERS TAKES NO RESPONSIBILTY FOR ANY DAMAGE TO OUR LINERS DUE TO THE IMPROPER USE OR APPLICATION OF A FORM RELEASE AGENT. IF UNSURE OF THE RELEASE AGENT'S COMPATIBILITY WITH ANY OF OUR LINERS, CONSULT WITH THE CHEMICAL MANUFACTURER PRIOR TO USE.

PLACING CONCRETE

Most urethane formliners cannot withstand a rate of pour in excess of 600-750 psf. Generally, the more texture or relief on the formliner, the slower the concrete must be placed. If a plasticizer is used, the rate of pour may have to be reduced to limit form pressure.

A test panel using the selected material should be poured simulating actual jobsite conditions and procedures, including: pour rate, height of wall, tie holes, reveals, joints in formliner panels, etc. Actual construction should proceed using the same method and materials throughout the project.

Architectural concrete should be placed using a pump and an elephant trunk to avoid mix separation, splatter and trapped air. Placement should be in two-foot lifts with no horizontal movement to avoid flow lines in the finished surface.

To avoid cold joints, architectural concrete placement should never be stopped part way up the pattern. The cold joint will be very apparent in the finished surface of the pattern.

STRIPPING FORMWORK

If possible, forms should be stripped within twenty-four hours of concrete placement. This is important because:

1. **The heat of concrete hydration can degrade formliner material over an extended period of time and can cause sticking.**

2. **Concrete may darken the longer the liner is in contact with the formliner surface.**

3. **When using multi-use liners, the liner life can be shortened if forms are not stripped as soon as is practical.**

Formliners should always be stripped with an equal time interval between lifts. This will result in consistent concrete color in jobs requiring multiple pours.

Formwork should always be stripped at 90-degree angles to the form if possible. Ribbed or fractured textures will require special care to avoid breaking off fins from the concrete or the liner. A low profile pattern will be easier to strip than a high profile pattern.

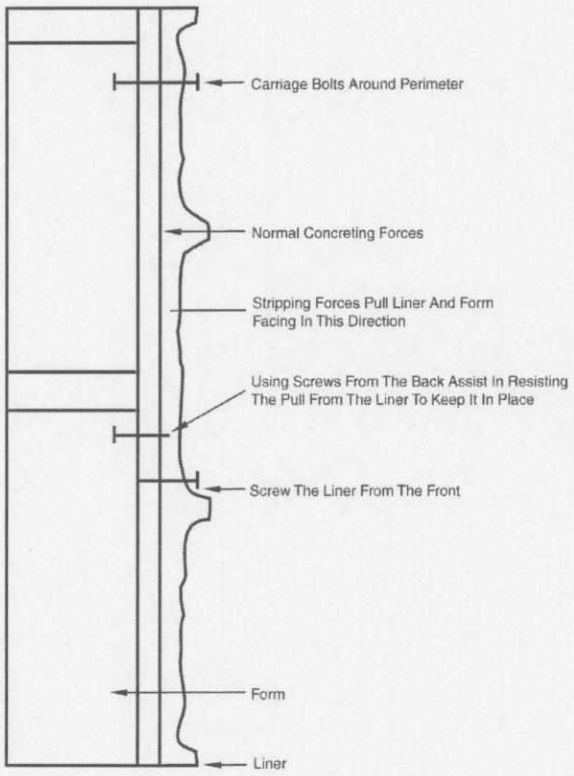
Allow extra time for stripping formwork when formliners are part of the job requirement. The added care in properly stripping formliners is much less expensive than repair of the surface or replacement of the liner.

MANUFACTURING TOLERANCES

Mold Bonded to 0.75" plywood: +/- 1/8 inch (length and width)
Un-bonded (custom order only): to be determined by pattern

ATTACHING AND STRIPPING PROCEDURE

Fitzgerald Formliners has many GrayLastic patterns with a rough surface texture and grout lines that are embedded into the concrete 1 ½" – 3". Care must be taken when stripping these formliner patterns from the wall due to the deep and narrow grout joints. Gang forms are required.



To assist in removal from the wall, adequate formliner attachment is critical. (Please refer to the illustration to the left.) Attaching the liner should occur from both the front and back sides of the form. Through the front-side, embed ¼" carriage thru-bolts on 12" centers along all outside edges of the liner. At 18"-24" centers through the field of the liner, embed ¼" coarse screws directly into the formliner plywood.

The deep grout lines and rough texture of the liner can create a potential for additional adherence to the wall as compared to that of shallower formliner patterns. Lengthy form stripping cycles make liner removal more difficult, as well. ***For best results, stripping should be completed within 24 hours.***

Avoid rotating the forms away from the top of the wall when stripping begins. This could allow the formliner to become wedged into the concrete at the bottom of the wall, damaging the grout joints or raised portions on the formliner.

Strip forms evenly combining use of the crane and come-a-longs attached to the midpoints

and bottom sections of the forms. Pull forms directly away from the wall. This procedure may take additional time to accomplish, but results in less liner damage.

Clean and apply form release agent on all liners prior to the first pour and after each subsequent pour. The form release agent must be mopped on so all surfaces are thoroughly coated. Clean formliners with a stiff brush after each pour to remove any concrete laitance and re-apply the form release agent.

Architectural concrete jobs are inherently more difficult than structural concrete jobs. As such, attention to detail becomes critical for satisfactory results. It is recommended that proper planning and execution be followed.

***Gang Forms Required**

METHODS TO FIELD REPAIR

1. **Zap-A-Gap (Super Glue)**

Gluing damaged areas can repair some types of damage to the formliner, such as small chunks or divots that have occurred. First, clean the pieces with acetone and glue them back into position. Use this product on small area repairs.

2. **Expanding Foam**

Use this product to repair damaged areas of the formliner not easily repaired by the previous method. Expanding foam is difficult to work with and can be labor intensive.

3. **Replacing Formliner**

At times formliner damage is not repairable in the field. Most field repairs are temporary measures. Repeating repair work is normal after each pour if damage to liner is great and repair is extensive. Replacement of material is sometimes necessary.

Improper formliner preparation, such as poor cleaning between pours, type of release agent chosen, application of release agent, jobsite handling, storage and exposure to sunlight can all contribute to lessen the life expectancy of architectural formliners.

Caltrans Project 03-0F3104
DBE Participation Good Faith Efforts

03-0F3104 Attachment C

3. For each item of work made available, include whether the Bidder provided plans and specifications specific to the items of work being offered, list the selected firm and its status as a DBE, the DBEs that provided quotes, the price quote for each firm, and the price difference for each DBE if the selected firm is not a DBE. Provide copies of each DBE and Non-DBE quote submitted to the Bidder whenever a Non-DBE firm was selected over a DBE for work on the Contract.

RE: Work Item Review for G&C Equipment Corporation

Dear Mr. Hale:

This letter is regarding the recent meeting your company had with Caltrans Directory Malcolm Dougherty and Assistant Director René Halverson from the Office of Business Economic Opportunity.

Caltrans has taken the initiative to ensure all certified DVBE firms that bid on or perform on Caltrans' State funded projects are performing a commercial useful function (CUF). After careful evaluation of the information and documentation obtained as a result of the review, pursuant to Military & Veterans Code §999(b)(5)(B) (i) and (ii), your firm is deemed to perform a CUF when providing the following types of services on Caltrans projects:

Work Item Description	G&C Role/Participation
Safety Equipment Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Reinforcing Bar Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Lumber Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Pipe Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Guard Railing & Barriers Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Traffic Stripes, Marking & Traffic Control Materials	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Wholesale Broker of Construction Materials	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks

Work Item Description (Continued)	G & C Role/Participation (Continued)
Sign Structure Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Electrical Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Construction Area Signs Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks
Plumbing Materials Supplier	Review of past performance on Caltrans projects, onsite visit and inventory listing, G&C deemed able to perform these tasks

Since we have determined your firm is providing a CUF for the specified classifications listed in the table above, the DVBE credit can ONLY be granted to the afore mentioned classifications and counted towards DVBE goals for Caltrans State funded contracts. For all other goods and services that G & C Equipment is listed for, the Contract Evaluation Unit will assess these particular work items on a contract by contract basis.

You may review your firm's information on the Department of General Services (DGS) website at http://www.bidsync.com/DPXBisCASB. It is your responsibility to maintain correct information regarding your firm's name, address, phone/fax number, and e-mail address on the DGS website.

If you have questions or need further assistance or clarification, please contact Ryan Jeske, Contract Evaluation Analyst, CEU at (916) 324-0462, or by email at ryan_jeske@dot.ca.gov.

TERMS AND CONDITIONS:

1. This quote and attached terms and conditions must become a binding part of any sub-contract.
2. A purchase order and 10 working days notice must be given prior to start of work. This quote shall remain valid for 30 days from date of actual bid opening, unless otherwise agreed upon.
3. TERMS: Due and payable within 30 days from date of installation and/or as per Business and Professional code 7108.5 and Public contract code 10262.5 (for progress payments) and/or as per Public contract Code 7107 (for retention due).
4. All change orders must be approved by agency/owner prior to work being performed by Veridico.
5. Excludes any insurance requirements in excess of Caltrans Standard Specifications. Additional insured and/or waiver of subrogation requests will be an added cost.
6. Splitting offered bid item quotes **may be considered**. Please call Tim Anenson at (707) 317-0002 to discuss splitting the bid item quotes prior to the Caltrans submittal deadline.

ASSUMPTIONS:

1. **Work Area Monitoring for Air** will be conducted under the direction of a Certified Industrial Hygienist (CIH). All travel, perdiem, materials, supplies and laboratory costs are included in the daily rate. Reports will be prepared and signed by a CIH as called for in the Special Provisions. Veridico assumes a MINIMUM air monitoring duration of five (5) days. The Prime Contractor can multiply the daily Work Area Monitoring rate of $1,895.00 per day by the actual activity days to calculate a lump sum total for the project if more than five (5) days. A mobilization charge of $350.00 will be charged for each mobilization to the site for non-consecutive monitoring events.
2. **Work Area Monitoring for Soil and Waste** will include two (2) visits to the site to collect pre- and post-soil samples at eight (8) locations each visit. Soil samples will be analyzed for lead and chromium pursuant to the Special Provisions. One waste sample will be collected and analyzed for lead and chromium by TTLC, STLC, and TCLP as also required by the Special Provisions. The waste sample will be collected during the post-soil sampling visit; no separate sampling date is included. Provided pricing includes all travel, perdiem, materials, supplies and laboratory costs.
3. Storm water sampling and water quality sampling will be conducted by the Prime contractor. The daily rate provided by Veridico for each includes an initial training by a Veridico QSP for up to two (2) field personnel and supply and maintenance of required testing equipment, in addition to data consolidation in preparation for reporting.
4. Veridico assumes that lead will be the only analyte for airborne monitoring.
5. Job Site Management assumes a project duration of 270 days (field work), or 54 weeks of on-site field work.

   54 weeks x $325.00/week = $17,550.00

   This is a weekly rate for Veridico to document required SWPPP compliance by completing Caltrans forms 2030 and 2023 by a QSD/P. Veridico will work with your field staff to assess site conditions each week; no site visits are included. Pre-, during and post-rain event site inspections are not included but will be billed at the Job Site Management rate if required.

6. No other plans, reports, monitoring or permits are included.
7. Contractor to provide completed SWPPP questionnaire (supplied by Veridico upon notice of award) prior to start of work.
8. The Contractor-Supplied Biologist rate assumes all daily activities required of the biologist can be completed in an 8-hour shift, including travel. Reporting, monitoring, and/or training that cannot be conducted during the 8-hour shift (including travel) will be conducted during the following shift and billed as an additional day.
9. The SWPPP, the ACP, and the LCPs include one (1) revision for the quoted bid. Additional revisions will be billed at $125.00 per hour.
10. Print-ready electronic draft and final copies of plans and/or reports will be provided so hard copies can be produced; no hard copies will be provided by Veridico.

Attn: Estimator

Alfred Civil Engineering, Inc. ("Consultant") is pleased to submit sub quotes for services as a Qualified SWPPP Developer (QSD)/Qualified SWPPP Practitioner (QSP) to perform stormwater pollution control services for the above-referenced contract. We are a California Unified Certification Program (CUCP) certified DBE with annual gross receipt below $500,000.

The following is a packaged quote based on the assumption that all bid items will be performed by Consultant; and bid items cannot be selected individually. If necessary, Contractor may call 916-241-5309 to request quote adjustment to fit Contractor's requirements.

BID ITEM	ITEM CODE	ITEM DESCRIPTION	Unit	Est. Quantity	Unit Cost	Est. Amount
14	130300	Prepare and Implement SWPPP to comply with CGP, Caltrans NPDES Permit, and Caltrans 2015 Standard Specifications, Section 13.	LS	1	$51,400	$51,400
15	130310	Rain Event Action Plan (REAP)	EA	52	$220	$11,440
16	130320	Storm Water Sampling and Analysis Day. Consultant will train Contractor employees to perform sampling. Consultant will perform analysis calculations.	EA	110	$220	$24,200
17	130330	Storm Water Annual Report	EA	3	$600	$1,800
	Total Estimated Cost					**$88,840**

The above total is an estimated fee based on Engineer's estimate of Working Days. SWPPP work continues through suspensions, Non-Workings Days and the period between end of construction and Water Board acceptance of Notice of Termination. Therefore, actual fees may vary from this estimated fee. Contractor will be billed for actual quantities and payment amounts.

Optional Items

- The draft SWPPP will be submittal electronically to the Contractor. The above estimated fee does not include hardcopies of the SWPPP. Hardcopies can be provided if requested. Contractor will pay for printing shipping costs.

Consultant's Responsibilities

- Consultant shall prepare a SWPPP within ten (10) business days for submittal to Contractor after receiving all the information requested by Consultant, including, but not limited to, essential information for the SWPPP and the project schedule.
- Consultant responsibilities are limited to the requirements of the Construction General Permit of California (CGP), as applicable.
- Consultant shall implement authorized SWPPP, revise SWPPP if required, and prepare monitoring reports. Contractor shall cooperate with Consultant so as not to impair Consultant's ability to perform its duties under the CGP as applicable, by, among other things, performing allocated tasks, ensuring CGP required documents are retained on project site, mobilizing crews promptly to deploy, maintain BMPs or perform corrective actions. Consultant shall have the authority to mobilize crews to make immediate repairs to WPC practices, stop construction activities damaging WPC practices or causing water pollution.

Insurance:

Consultant maintains, and shall maintain during the performance of its work on the project, the following insurance and coverages:

- General liability - $1 million per occurrence/$2 million aggregate;
- Professional liability - $1 million per occurrence/$2 million aggregate;
- Commercial automobile liability -$1 million combined single limit;
- Umbrella liability - $1 million;
- Worker's compensation liability -$1 million per accident for bodily injury or disease.

Insurance or insurance coverage required in addition to or in excess of the insurance and coverage provided under this provision shall be paid for by Contractor before Consultant commences work.

Indemnity:
Consultant only provides consulting services, does not perform physical construction work or deliver construction materials to the field, and is not responsible for water pollution or unauthorized discharge of pollutants from the project, including, without limitation, any resulting costs, fines, penalties or fees. Contractor shall indemnify, hold harmless, and defend Consultant from any and all claims, damages, liabilities or other obligations of any nature arising out of or which relates to Consultant's work on the project, except that caused by the sole and active negligence of Consultant.

W.C. Maloney Terms and Conditions

1. W.C. Maloney's indemnity obligations and other payment obligations under this subcontract are expressly limited to and shall not exceed obligations, losses, damages, etc, covered by and actually paid by W.C. Maloney's insurance as required in this subcontract.

2. Subcontractor's proposal and price are expressly conditioned upon the following terms. No modifications to the following are permitted, except by a separate written agreement signed by both parties that expressly negotiates a modification of a term contained herein. These terms supersede and control any general conditions for the project, terms of the contract with the owner, or any other contractual terms with which they may conflict. Prices in this proposal are valid for thirty (30) days. The terms & conditions set forth in this bid proposal and the terms & conditions attached here to, shall control & supercede any and all term and conditions in any proposed subcontract between WC Maloney, Inc. & Owner/Contractor of this bid. This bid proposal shall be attached and incorporated by reference into any subcontract returned to WC Maloney, Inc. or signature.

3. Items not expressly included in this proposal shall deemed excluded from subcontractor's scope of work, including, without limitation: Layout, traffic control; permits; utilities; air quality control and monitoring; erosion control; including without limitation, blocking storm drains, or catch basins; water or dust barriers; patching; shoring; access to work area; safety rails/barriers; protection of open areas resulting from saw cuts, core holes, demolition or excavation work performed by subcontractor and directed by others, or open areas ; protection from water dust damage or staining; water or dust control; and hazardous material conditions, including removal.

4. All payments, including payments for extra work, shall be made in accord with California Civil Code, prompt payment statures, but in no event no later than ten (10) days from the date Contractor receives payment from Owner/Contractor. In addition to any other remedies available, work not paid for in a timely fashion shall be subject to a late charge of 2%.

5. Back charges will not be paid unless Owner/Contractor (a) notifies Subcontractor within seventy-two (72) hours of discovery, (b) and Subcontractor provides written approval before remedial work is performed, and (c) Owner/Contractor provides Subcontractor a reasonable opportunity to cure the defect. Back charges may not be deducted from payments due; back charges instead will be billed.

6. Charge order proposals shall be valid for twenty (20) days unless otherwise noted. All submittals to Owner/Contractor shall be processed and returned (accepted, rejected, or modified. etc.) promptly and within a reasonable time, not to exceed 14 days; if Owner/Contractor allows Subcontractor to commence

work under change order, and Owner/Contractor does not direct Subcontractor in writing to cease work under the proposed change order, the proposed change order shall be deemed accepted and authorized. Substitutions shall not be unreasonably rejected. Time extensions requested by Subcontractor on change order proposals will be considered accepted unless specifically noted otherwise in writing.

7. Subcontractor shall be entitled to equitable adjustment in the subcontract amount for additional costs caused by excessive changes, delays, accelerations, or other items outside Subcontractor's responsibility or control.

8. Subcontractor will carry a comprehensive general liability policy, with a maximum limit of $ 1,000,000 per occurrence. Subcontractor shall only be bound to the schedule for work as stated in bid or proposal or according to a schedule which Subcontractor and Owner/Contractor have expressly approved in writing. Subcontractor shall not be responsible for any delays or defaults if occasioned, in whole or in part, by any cause beyond its control, including, without limitation, delays caused by: (a) others; (b) transportation; (c) shortages; (d) civil disorders; (e) labor difficulties; (f) fires; (g) floods; (h) accidents; and (i) unforeseen or changed conditions and (j) acts of God. In no event, shall Subcontractor be liable for any liquidated damages. Subcontractor is not responsible or liable for costs, liabilities, damages, or losses in connection with (a) concealed or unknown site conditions (including, without limitation, items concealed by concrete or asphalt, or within the cutting, drilling, demolition or excavation depths requested), including, without Limitation, buried conduit, pipe, wood beams or footings, (b) water damage; or (c) hazardous conditions. To the greatest extent permitted by law, Owner/Contractor agrees to defend, indemnify and hold harmless Subcontractor for any claims, demands or liabilities by Owner/Contractor or third parties for any matters for which Subcontractor is not responsible under this Section, notwithstanding any negligence or fault on the part of Subcontractor. However, Owner/Contractor shall not be required to defend, indemnify, or hold harmless Subcontractor for Subcontractor's sole negligence or willful misconduct.

9. Subcontractor shall not be bound by any written notice or written authorization provisions, if Owner/Contractor had actual or constructive knowledge of the item, or if such written notice requirement would be inequitable.

10. All disputes shall be resolved by binding arbitration according to the Construction Industry Rules and the Laws of California. Prior to proceeding with any legal action, the parties shall participate in mediation before a mediator acceptable to both parties. In the event legal action is commenced in connection with the Proposal or work, the prevailing party shall be entitled to attorneys' fees and experts' fees.

4) Traffic control, lighting, waste bin/container and disposal of waste as required.
5) Safe access to structure and working areas for men and equipment; safe, secured and adequate in-place work platforms, ladders and scaffolds; rebar caps in-place to insure the safety of workers above exposed vertical steel reinforcing bars.
6) Formwork and blockouts adequate to support anchors with bolt holes for anchor attachment and holes to pass tool to check duct clearance.
7) All concrete that may be required for flares, anchor zones, and concrete cover.
8) Supply & installation of all reinforcing steel per Contract Plans and adjustment to reinforcement to obtain unrestricted clearance for duct and post-tensioning system installation and stressing equipment.
9) Contractor to provide unloading and reloading of trucks at jobsite and hoisting to and from superstructure as required for the support of the work.
10) DSI will check duct clearance during and immediately after installation. Contractor to check duct clearance during and after concrete placement and to make necessary corrections to provide clear ducts for strand installation. DSI to perform air testing of tendons prior to grouting, contractor to repair all leaks and costs for subsequent air tests attributed to concrete consolidation, form holes or any other concrete related deficiencies.
11) Laboratory certified testing for quality control of grout (strength, shrinkage & bleed).

ATTACHMENT A

CONDITIONS:

1) Progress and payment schedule as per the following subcontract activities with percentages representative of the value of the subcontract price proportioned per structure, frame or stage: 5% upon submittal of shop drawing, 25% on installation of anchorages and ducts, 50% on installation of prestressing strand, 10% upon completion of stressing operations and 10% when grouting is complete.
2) Progress payments to DSI will be made monthly as invoiced with no deduction of retention. Joint checks are required where DSI participated as a second tier subcontractor.
3) Terms are net 30 days. All sums not paid when due shall bear an interest rate of 1½% per month or the maximum legal rate permitted by law whichever is less; and all costs of collection, including attorney's fees, shall be paid by Contractor. DSI retains the right to stop work if amounts due are not paid within 10 days after DSI's written reminder.
4) No provision of the subcontract shall serve to void DSI's entitlement to payment for work properly performed or suitably stored materials or to require DSI to continue performance if payments are due but not made to DSI. No provision of the subcontract will restrict DSI's lien or other rights.
5) No backcharges will be valid without the subcontractor's written agreement at time of occurrence.
6) Work to be performed during DSI's regular working hours (8 hrs per day) and with a number of move-in(s) as indicated in DSI's proposal. All work performed outside of such hours and all additional move-in(s) due to reasons beyond DSI's control shall be charged at a rate or amount agreed upon by the parties at the time overtime is authorized.
7) Quotation is based on acceptance of DSI's standard insurance policy containing the following coverages:

Coverage	Limits
General Liability	$1,000,000/occ-2,000,000/agg
Product Liability	$1,000,000/occ-2,000,000/agg
Automobile Liability	$1,000,000
Employee Liability	$1,000,000

Costs for additional coverage, if obtainable, and Railroad Protective Insurance are not included in this proposal and will be billed separately.

8) Local property taxes are paid by Contractor for DSI equipment and materials on the project, if required.
9) This quotation is valid for 30 days from date of quotation. Written acceptance or letter of intent must be received within this period.
10) Terms and conditions of the Contract between Owner and Contractor are incorporated into this subcontract only insofar as specific clauses or paragraphs are expressly agreed upon between Contractor and Subcontractor. Use of the Contractor's subcontract form is subject to mutually agreed-upon clarifications and changes. If any of the Contractor's terms or conditions are in conflict with the above paragraphs the stipulations of these Subcontractor Conditions shall govern. Contractor agrees with the above by signature hereon as indicated or by permitting Subcontractor to commence work for the project.

EXCLUSIONS:

- Cost of permits & bonds (bond rate = 1.5%) Bond provided upon receipt of payment for cost of bond.
- Liquidated damages
- Testing, inspections

DSI TERMS AND CONDITIONS OF SALE AND SERVICE v.1 7/2012
ATTACHMENT B

DEFINITIONS:
"Buyer" -the party who will purchase Material and/or Services from DSI;
"Conditions" - these Terms and Conditions of Sale and Service;
"Contract" - means the contract between Buyer and DSI for the supply of Material and/or Services which shall comprise these Conditions and the Order;
"DSI" - either Dywidag Systems International USA, INC. or Dywidag Systems International Canada LTD.
"Material" - goods of any description to be supplied to Buyer by DSI;
"Order" - means i) Buyer's instruction to supply the Goods and/or Services (or Buyer's acceptance of DSI's offer to supply the same) whether made in writing (by letter, email or fax or other electronic means) or orally or by conduct or ii) the written document to which the Conditions are attached or in which they are referred to or iii) any other document in writing evidencing the terms for the supply by DSI of Goods and/or Services;
"Price" - the price of the Goods and/or Services as set out in the Order;
"Services" - services or work of any kind to be performed for Buyer by DSI;

ENTIRE CONTRACT:
These Conditions are exclusive and in lieu of all other terms and conditions appearing on Buyer's purchase order or elsewhere and apply to all supplies of Material and/or Services by DSI. Any other terms, whether in a purchase order or other document issued by or referred to by Buyer, irrespective of their materiality, which are either different or additional to the Conditions are objected to by DSI and excluded unless expressly and clearly agreed to in writing by DSI. Supply of Material or Services by DSI shall constitute Buyer acceptance to the Conditions. There are no understandings, representations or warranties of any kind not expressly set forth herein.

TERMS OF PAYMENT:
Terms of payment shall be the terms set out on the face of this Contract as supplemented by the terms of this paragraph. If not otherwise stated on the face of this Contract, DSI shall be entitled to invoice Buyer periodically as Material and/or Services are provided and payment shall be due and payable within 30 days after the date of each invoice. A service charge, computed on all payments past due and owed by Buyer under this Contract at an annual percentage rate of 18% shall be added to the Price; however, if such rate is prohibited under applicable law, then such service charge shall be computed at such lower rate as is the maximum rate permitted by law. Buyer also shall be liable for all legal fees and reasonable expenses incurred by DSI in the collection of past due accounts. DSI, upon notice to Buyer, may decline to make deliveries under this Contract, except for cash sales, whenever DSI for any reason doubts Buyer's ability to make payments as agreed under the Contract. Buyer shall not be entitled to set off any amounts owing or purported to be owing by DSI to Buyer or any 3rd party against amounts owing to DSI by Buyer.

DELIVERY/RISK OF LOSS/TITLE:
Unless otherwise indicated on this Contract, delivery of Materials shall be Ex Works DSI's Facility (Incoterms 2010). Delivery dates will be confirmed upon receipt of a binding order from Buyer. Risk of loss or damage to, and responsibility for, the Material shall pass to Buyer upon delivery to carrier at shipping point. No shipment shall be diverted or reconsigned without DSI's prior written consent. Unless otherwise agreed, DSI shall select means of transportation and routing. Title and right to possession of any Material covered by this Contract shall remain with DSI until the purchase price is paid in full or until DSI's lien rights cease.

ACCEPTANCE OF MATERIAL:
Upon tender of delivery of any Material to Buyer, Buyer shall immediately inspect the Material and shall give written notice to DSI of any shortages and of any Material rejected as damaged or otherwise nonconforming. Where delivery is made by common carrier, such notice shall be accompanied by the original freight bill with a notation thereon by the carrier confirming the shortage, damage or nonconformity. Any Material not so reported by Buyer to DSI as rejected shall be deemed to be irrevocably accepted. If Buyer so notifies DSI of any shortage or rejected Material, DSI may if it reasonably notifies Buyer have a further reasonable time to tender substitute Material.

WARRANTIES:
Materials - DSI warrants to Buyer only that the Materials delivered hereunder will conform to their specifications (either as agreed in writing with Buyer or DSI's standard specifications as set out in its product literature in force at the date of delivery) at the time of shipment and shall be free from defects in material and workmanship. Any recommendations or technical advice provided Buyer by DSI is believed reliable, but DSI makes no warranty of results to be obtained or fitness for Buyer's purpose and Buyer accepts such recommendations or advice at Buyer's risk.

DSI also warrants that the Material furnished hereunder will not, in the form in which furnished, infringe any valid United States patent which claims the Material itself, but DSI does not warrant against infringement by reason of Buyer's use thereof in combination with other materials or in the operation of any process. This warranty is conditioned upon Buyer's prompt notification in writing to DSI of any claim made against Buyer for such patent infringement, and upon Buyer's authorization of DSI to assume full and exclusive control of the defense or settlement of such claim or any legal action based thereon.

DSI MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY, STATUTORY OR OTHERWISE, CONCERNING THE MATERIALS INCLUDING, WITHOUT LIMITATION, A WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE OR A WARRANTY OF MERCHANTABILITY. THE WARRANTIES GIVEN UNDER THIS SECTION ARE EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED.

Services Warranty - DSI warrants that the Services will be performed in a good and workmanlike manner. Buyer's sole and exclusive remedy and DSI's entire liability with respect to this warranty will be, at the sole option of DSI, to either (a) use its reasonable commercial efforts to reperform or cause to be reperformed any Services not in substantial compliance with this warranty or (b) refund amounts paid by Buyer related to the portion of the Services not in substantial compliance; provided, in each case, Buyer notifies DSI in writing within 30 days after performance of the applicable Services. EXCEPT AS SET FORTH HEREIN OR IN ANY STATEMENT OF WORK THAT EXPRESSLY AMENDS DSI'S WARRANTY, DSI EXPRESSLY DISCLAIMS ALL OTHER WARRANTIES, REPRESENTATIONS, CONDITIONS OR COVENANTS, EITHER EXPRESS OR IMPLIED (INCLUDING WITHOUT LIMITATION, ANY EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS OF FITNESS FOR A PARTICULAR PURPOSE, MERCHANTABILITY, DURABILITY, TITLE, ACCURACY OR NON-INFRINGEMENT) ARISING OUT OF OR RELATED TO THE PERFORMANCE OR NON-PERFORMANCE OF THE SERVICES.

LIMITATIONS ON DSI'S LIABILITY:
DSI's total aggregate liability under this Contract and for any damages in any action or claim based upon contract or tort (including negligence) or breach of statutory duty or for any other reason and which arises out of or in connection with this Contract or the supply of Materials and/or Services shall in no event exceed 100% of the total amount paid to DSI by Buyer under this Contract. However, nothing excludes or limits DSI's liability for (i) death or personal injury resulting from its sole negligence, or (ii) any claim against Buyer relating to DSI infringing a third party's intellectual property.
In no event shall DSI be liable for i) any liquidated or delay damages or for any costs related to delays or the avoidance of delays ii) any consequential, special or incidental damages or indirect losses, (including without limitation fines, punitive damages, loss of profit, business or contract, pure economic loss, depletion of goodwill incurred or suffered by Buyer).

CLAIMS:
All claims, except for the infringement of patents, must be made in writing strictly within 30 days after delivery of the Materials or completion of Services hereunder, and failure so to do shall constitute a waiver by Buyer of any such claims. Buyer shall use all reasonable efforts to minimize such claims or sums and to mitigate its losses. No claim of any kind shall be greater in amount than the paid purchase price of the Material or Services for which a claim is made. Any claim that is not asserted as a claim, counterclaim, defense or set off in a judicial proceeding instituted within one (1) year after the date on which the Materials were delivered to Buyer or Services performed, whichever date is earlier, shall be forever waived, barred and released. Time is of the essence for all Buyer notifications to DSI.

If Buyer notifies DSI in writing of any defect in Material within 30 days after the date of last delivery of Material and such material breaches the relevant warranty above, then Buyer's sole and exclusive remedy shall be to cause DSI, at DSI's option to either replace such nonconforming Material or reimburse Buyer for the price paid for such nonconforming Material provided by DSI.

Buyer shall indemnify, hold harmless and defend DSI from and against any and all claims, actions, suits, proceedings, costs, expenses, damages and liabilities, including actual legal fees and expenses, attributable or alleged to be attributable in whole or in part to Buyer's breach of the Contract, its negligence or other fault arising out of or pertaining to the use, performance, non-performance or misuse of the Material or Services supplied by DSI hereunder.

FORCE MAJEURE:
DSI shall not be liable for any breach of its contractual obligations if performance of its obligations is suspended, delayed or interrupted or rendered impossible or impractical for reasons of Force Majeure. If an event of Force Majeure negatively impacts DSI, it shall be entitled to an extension of time in which to perform its contractual obligations and DSI and Buyer shall negotiate any change to the Contract including time periods and Price in good faith. Force Majeure means events outside or beyond DSI's reasonable control including without limitation Acts of God, flood, earthquake, or other natural disaster; epidemic or pandemic; war, threat of or preparation for war, armed conflict, imposition of sanctions, embargo, breaking off of diplomatic relations or similar actions; terrorist attack, civil war, civil commotion or riots; nuclear, chemical or biological contamination or sonic boom; any law or government order, rule, regulation or direction, or any action taken by a government or public authority, including but not limited to imposing an embargo, export or import restriction, quota or other restriction or prohibition, or failing to grant a necessary license or consent; fire, explosion or accidental damage by a third party; loss during transportation; adverse weather conditions; interruption or failure of utility service, including but not limited to electric power, gas or water; any labor dispute, including but not limited to walkouts, strikes, industrial action or lockouts (other than by DSI's employees); non-performance by DSI's suppliers, inability to obtain raw materials; and unexpected failure of plant machinery, machinery, computers or vehicles. If an event of Force Majeure lasts more than 3 months or immediately renders DSI's performance impossible or impractical, DSI shall be entitled to terminate its Contractual obligations by notice to Buyer and without penalty and shall be entitled to payment by Buyer of a pro-rata sum of the Price to reflect goods and/or Services delivered by DSI up to the date on which it terminated its Contractual obligations. DSI reserves the right to allocate its available supply of Materials among any or all purchasers, as well as departments and divisions of DSI on such basis as it may deem reasonable, fair and practical, without liability for any failure of performance relating to this Contract.

TAXES:
Any tax, excise, fee or other charge or any increase thereof now or hereafter imposed by law upon the production, storage, withdrawal, sale, transportation, use or delivery of the Material sold or Services provided hereunder, shall be in addition to the price quoted and shall be paid by Buyer.

ASSIGNMENT:
No right or interest under this Contract shall be assigned and no obligation under this Contract shall be delegated by Buyer without the prior written approval of DSI. Any attempted assignment or delegation without such approval shall be wholly void and totally ineffective for all purposes.

APPLICABLE LAW/FORUM:
This Contract shall be governed by the laws effective and in force on the date hereof in the state or province in which DSI's office indicated on the face sheet of this Contract is located. Any action arising out of or related to this Contract shall and may be brought only in the court of appropriate jurisdiction of the state and county or province of the pertinent DSI location; provided, however, that DSI, at its option, may bring an action in any jurisdiction where the Material and/or Services provided hereunder are located, or where Buyer maintains an office or other facility, or as permitted by any bond.

COMPLIANCE:
DSI agrees that the Materials shipped hereunder will be produced in compliance with the Fair Labor Standards Act of 1938, as amended, and when applicable, the Equal Opportunity Clause of Executive Order 11246, as amended, and other applicable federal, state or local laws. Buyer agrees that the Materials purchased hereunder will be used in compliance with all applicable laws.

SPECIAL MATERIALS:
If this Contract covers Materials which are manufactured especially for Buyer and the Contract is terminated or an order thereunder cancelled, Buyer will take delivery of and make payment for such Material as has been manufactured and such as is in the process of being manufactured on the date notice of such termination of cancellation is received by DSI.

CHANGE ORDERS:
Buyer may order, without invalidating this Contract, changes in the work within the general scope of this Contract consisting of additions, deletions or other revisions. Before DSI shall be required to proceed with such change order, the parties must agree in writing as to the adjustment to the Contract price and delivery terms for such changed work.

TERMS AND CONDITIONS FOR DRILLED PIERS

1. This proposal shall be made part of any contract covering this work. If contractor/owner signs this proposal, or otherwise indicates its consent, such as verbally requesting us to commence work, then this proposal will represent the entire agreement of the parties regarding performance of the work. If contractor/owner subsequently requests Case Pacific Company to sign its own form of contract, this proposal will be deemed to be part of the contract and will supersede any other conflicting terms of that contract, unless this proposal or any paragraph or part is expressly excluded by the parties.
2. Unless stipulated to the contrary, the following items of work are to be performed and paid for by others. No cost for these items is included in the principal sum.
   a. All field engineering, transit and level work as required by Case Pacific Company in addition to center hubs, reference points and grade stakes for concrete and steel placement at each pier and/or soldier beam location.
   b. All required soils and concrete testing and inspection including pier records, shop drawings and reports.
   c. Provide acceptable ramp to working area and firm, dry level access and suitable clearance to each pier location so that drilling equipment, concrete trucks, cranes and other construction vehicles can move from location to location under their own power. Access includes furnishing, placing and maintaining ramps, mats, gravel or other surface materials throughout the project. Access to shafts to be provided prior to beam or cap excavation, or agreed to in writing.
   d. Removal, relocation, potholing or protection of any existing utilities, either above or below ground, which may interfere with the installation of Case Pacific Company's work. Power lines closer than legally permissible are to be removed or de-energized by others. When Case Pacific Company is requested to commence work on the referenced construction project, that request will constitute representation that all above or below ground utilities have been located and that all necessary and appropriate action has been taken to ensure that the work to be performed by Case Pacific Company can be performed safely without any threat of injury or damage to persons or property from said utilities.
   e. Furnishing, delivering and placing of any anchor bolts, dowels, column or wall steel, base plates, keys, templates or forming above or below drilling grade.
   f. Shoring, bracing, underpinning, supporting or protecting existing structures including protection and/or repair of all pavement and sidewalks.
   g. Continuous removal and disposal of all spoils (liquid or solid) and waste materials, debris and excess concrete so as not to interfere with or delay Case Pacific Company's work.
   ~~Providing and maintaining catch basins at working grade, no more than 100' from the pier locations suitable to accept fluids pumped from pier excavation.~~ Should tanks or desilting basins be required, they are to be ~~furnished and~~ cleaned by others at no cost to Case Pacific Company.
   i. Furnish storage and parking area, sanitary facilities, traffic control, flaggers, barricades, street cleaning and minimum 2" water service within 200' of each work location. Handrails and fences to be furnished, installed, relocated, and maintained as required.
   j. All required on-site licenses, permits, inspections, observations, monitoring, material design, surveys, easements, laboratory or field testing, inspection reports, and services of a foundation or structural engineer.
   k. Fall protection for non-Case Pacific Company employees.
3. This proposal is based on performing our work in one continuous, uninterrupted operation with only one move on and off the site. Each additional move will be charged at: $_____. Mobilization and work duration schedules to commence after Case Pacific Company's receipt of a fully executed contract. Work duration days to commence after we are mobilized on the site.
4. This proposal is based on a mutually agreed to schedule and our working a straight-time work week. The premium time portion of any overtime work required will be charged as extra work.
5. Standard rates will be charged for delays caused us by others over which we have no control.
6. Drilled shafts shall be installed in accordance with ACI 336.1 unless specified under special conditions.
7. The removal of obstructions such as concrete, timber, wire, steel, masonry, pipelines, loose fill, etc., which interfere with the pier installation is not included in the principal sum and the costs for removal and delays will be billed and paid for as extra work. Case Pacific Company shall also

TERMS AND CONDITIONS FOR DRILLED PIERS

be entitled to equitable compensation for costs of any excess repair of drill rigs, drill tools, or casing that suffers damage from unexpected rock or obstructions to drilling or coring.

8. ~~Casing, dewatering and shoring or bracing of belled piers, hand mining or hand cleaning and rock drilling and coring are not included in the principal sum and any such work will be performed on a time and material basis. Rock drilling is defined as when more than five minutes are required to advance one lineal foot with a standard earth auger.~~
9. If reinforcing steel is to be furnished and paid for by others, the reinforcing steel cages shall be conveyed to each pier location at no expense to us, adequately tied and braced so they will retain their shape during handling and placing with our equipment. Cutting, splicing, and the furnishing and installation of required spacers to be done by others. Protection of protruding steel or cleaning, sandblasting, etc. to be performed by others. We do not employ ironworkers to hoist and lower the cages or to secure them prior to placing concrete. If, for any reason, ironworkers are required, they will be employed, directed and paid by others.
10. If concrete is to be furnished and paid for by others, concrete shall be delivered to each pier location at the time and quantity specified by us. We accept no responsibility for standby charges or plant overtime. If a tremie or pump mix is required due to job conditions, it shall be furnished at no additional cost to us. Placement of concrete by pump is excluded from this proposal. We accept no responsibility for overrun in concrete quantities. All concrete is to be placed in accordance with ACI 336.1. Concrete truck cleanout area to be provided by others.
11. The Prime Contractor shall arrange for prompt covering and protection of all open shafts, unless they are completely filled to existing grade with concrete by Case Pacific Company.
12. Case Pacific Company shall be excused for delays in the completion of the contract caused by acts of God, action or non-action of owner, owner's agents or employees, the General Contractor, other contractors on the project, inclement weather, labor disputes, acts of public utilities, public bodies, extra work, failure of owner or General Contractor to make progress payments, or other contingencies unforeseen by Case Pacific Company and beyond our reasonable control.
13. Case Pacific Company has relied on owner's plans, specifications and geotechnical report for bidding purposes. Case Pacific Company shall be entitled to compensation for extra cost incurred as a result of erroneous plans, specifications or unanticipated site subsurface conditions. Should conditions be encountered in the performance of Case Pacific Company's work which differ from (A) Those indicated by the contract documents or soils data furnished to Case Pacific Company or (B) Those ordinarily encountered and generally recognized as inherent in work of the character provided in the contract, an equitable adjustment will be made to cover the resulting costs. If drilled shafts are designed deeper then the soils borings, we have assumed that the material to be drilled is similar to that which was encountered to the depth explored. Should this not be the case, any added expense to us is to be paid for as extra work.
14. Case Pacific Company shall maintain in place, throughout the performance of its work hereunder, workers' compensation coverage as required by law, and commercial general liability insurance for bodily injury and property damage coverage (without the exclusion for explosion, collapse and underground loss), with a single occurrence limit of $1 million. Coverage for additional insured parties shall be limited to Case Pacific Company's share in the total fault causing the loss or damage on which the claim is based. Case Pacific Company shall indemnify Owner and/or Prime Contractor with respect to any claim that arises directly from the negligence or intentional fault, if any, of Case Pacific Company in performing its work hereunder, but the extent of such indemnity shall be limited to Case Pacific Company's portion of the total fault causing the loss or damage on which the claim is based. Case Pacific Company shall have no other responsibility to defend, pay for, or indemnify Owner and/or Prime Contractor or its agents with respect to claims arising from or related to Case Pacific Company's work hereunder. A waiver of subrogation is not included and can be furnished at an additional cost. Owner Controlled Insurance Program (OCIP) or Contractor Controlled Insurance Program (CCIP) insurance costs are not included in our proposal. If an OCIP or CCIP is utilized on the project, Case Pacific Company's maximum contribution through a self-insured retention (SIR) or deductible will be $5,000 per occurrence.
15. No charges of any kind are to be for Case Pacific Company's account unless they are agreed to and signed for by a properly authorized representative of Case Pacific Company.
16. It shall be the responsibility of the Owner and/or the prime contractor to coordinate the work of all other contractors, subcontractors and material suppliers, so as not to hinder, interfere or delay Case Pacific Company's work.
17. The work may be changed by "Field Order", "Change Order", "Extra Work Order", or otherwise authorized by the contractor/owner or his agents. Such changes may include changes in scope, method, scheduling or other performance requirements. In such event, the contract price and the completion date will be equitably adjusted. Case Pacific Company will notify contractor/owner of such changes within a reasonable time after authorization.
18. Extra work and items of work specifically excluded but performed by Case Pacific Company or delays resulting from interference or non-performance of others shall be invoiced at extra work rates or will be negotiated and included in monthly progress estimates and reimbursed according to our terms of payment.
19. The add/deduct unit price for any individual drilled pier shall apply only when the variation from plan length does not exceed 15%. Any increase/decrease in excess of such amount shall be considered a change of contract, and at our option, shall be performed on a cost basis, plus 20% for overhead and profit.
20. Payment shall be made on the 10th of each month for all work completed during the preceding month. Such payments are to include the cost of materials placed on the jobsite or in storage near the site and not incorporated in the work. Final payment, including retention, if any, shall be made within thirty-five (35) days after substantial completion of all work or each stage/phase of work covered by this proposal. Retainage withheld by the Contractor from progress payments to the Subcontractor shall not exceed the percentage withheld by the Owner on his payments to the Contractor. Interest will be charged on all past due accounts at the highest legal rate.
21. If payment is not made as provided herein and Case Pacific Company is compelled to incur attorney's fees and litigation costs to collect all or any part of the contract price or extras incurred during the course of the work, said fees and costs shall become collectible as an addition to the contract price.
22. Should any payment due us, including payment for all extra work, not be made when due, we shall have the right to stop work and to refrain from continuing work on the project until all due payments are received.
23. Case Pacific Company shall not be responsible for and is hereby released from any and all liability for liquidated, consequential or incidental

TERMS AND CONDITIONS FOR DRILLED PIERS

damages which may be assessed under the prime contractor or otherwise.

24. The parties agree that all claims and disputes by and between them shall be submitted to mediation by a mediator mutually agreeable to the parties and if they cannot agree, a mediator appointed by the court on petition by either party therefor. The cost of such mediation shall be borne equally by the parties. The foregoing agreement to mediate shall be specifically enforceable.
25. The term "piers", as used in these Terms and Conditions, is used generically to include piers, drilled piles, drilled shaft foundations, belled piers and caissons.
26. Others are to provide continuous removal and disposal of all spoils and contaminated materials so as not to interfere with or delay the progress of Case Pacific Company's work. Should hazardous substances be encountered, the prime contractor or owner shall promptly investigate the condition and make all determinations as necessary and provide direction in writing to the subcontractors relating to handling, transportation, storage, disposition, obtaining of permits, implementation of safety measures, monitoring, cleanup, etc. Case Pacific Company shall be entitled to a time extension of any delay caused thereby, and compensation for all costs incurred as a result of encountering hazardous substances to include but not limited to the additional costs associated with performance of contract work, extra work, delays, suspension of work, handling, transportation, storage, disposition, obtaining of permits, implementation of safety measures, personal protective equipment and/or clothing, cleanup, etc., whether caused or directed by the prime contractor, owner or any government regulatory authority. For the purposes of this paragraph "hazardous substances" is defined as any material encountered during the course of performance of this subcontract that any governmental or regulatory authority has or may determine represents a hazard or danger to the health and welfare of persons, property or the general environment.
27. A bond may be furnished if required with premium to be paid for by others prior to our mobilization.
28. This proposal offers to the contractor/owner the terms and conditions upon which Case Pacific Company will perform the work. It may be changed by Case Pacific Company at any time prior to acceptance by notice to the contractor/owner and will be deemed to be withdrawn if not accepted by the contractor/owner within thirty (30) days from the date appearing on the face hereof.

ABSL Construction to cold plane asphalt concrete and load cuttings into trucks provided by the contractor. ABSL may not meet all the specs in spec book.

Portland cement concrete grinding is excluded from this quotation.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept back-charges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid for one month after the bid date.

If you have any questions regarding the above quote please call me at (916) 379-0442 or fax at (916) 379-0443.

Sincerely, Todd **Wheeler 916-284-3598**

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) All areas to be ground shall be clearly marked by the General Contractor or Inspector before grinding operation starts.
2) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
3) A minimum of two weeks notice is requested to schedule move in. Machines are on a first come first served basis subject to availability. A 72 hours notice of change in schedule is requested.
4) Modification to the work may require a change in the quote.
5) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
6) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
7) Prices are good for 30 days of the date of this proposal, after that date the prices are subject to adjustment.
8) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
9) This proposal to be attached and made part of any and all resulting contracts.
10) The above price does not include permits, fees, bonding, state or local taxes.
11) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
12) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs
13) Back-charges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for back-charges.
14) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
15) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Todd Wheeler

Response #2:
Question: Will the construction method for the CIDH concrete piling be determined solely by the contractor? (e.i., cased method, slurry method, etc.) Please advise.
Answer: The contractor determines the construction method for the CIDH concrete piling that complies with the contract bid documents.

Question: When is the anticipated start date for construction?
Answer: Please bid per the current contract documents.

Add to the end of section 14-9.02:

The US EPA has established the National Emission Standards for Hazardous Air Pollutants (NESHAP). Under the Health & Safety Code § 39658(b)(1), your demolition and rehabilitation activities must comply with 40 CFR 61, Subpart M (National Emission Standard for Asbestos).

The asbestos survey and sampling report for this project is included in the *Information Handout.*

Notify the US EPA and the California Air Resources Board of your demolition activities even if the activities will not disturb asbestos-containing material.

You may obtain an Asbestos NESHAP Notification of Demolition and Renovation Form at the California Air Resources Board's website:

http://www.arb.ca.gov/enf/asbestos/asbestos.htm

Instead of the 10 working days specified at the website, mail or deliver the form with the necessary attachments at least 15 days before starting demolition or rehabilitation activities to:

US EPA - REGION IX
ASBESTOS NESHAP NOTIFICATION (AIR-5)
75 HAWTHORNE ST
SAN FRANCISCO, CA 94105

Mail or fax a copy of the notification form to:

CALIFORNIA AIR RESOURCES BOARD
ENFORCEMENT DIVISION
ASBESTOS NESHAP NOTIFICATION
P.O. BOX 2815
SACRAMENTO, CA 95812
FAX: (916) 229-0645

Submit a copy of the notification form and attachments as informational submittals before starting demolition or rehabilitation activities.

Replace section 19-11 with:

19-11 SOIL FILLED (CELLULAR CONFINEMENT SYSTEM)

19-11.01 GENERAL

19-11.01A Summary

Section 19-11 includes specifications for constructing soil filled (cellular confinement systems).

Constructing soil filled (cellular confinement system) includes:

1. Preparing areas to receive cellular confinement system

2. Compacting slope areas

3. Placing cellular confinement system

4. Filling and compacting cellular confinement system with backfill material

19-11.01B Submittals

Submit the following:

1. Product data including the manufacturer's product sheet and the instructions for installing the cellular confinement system

2. Certificate of compliance for cellular confinement system at least 5 business days before delivery of the material to the job site

19-11.02 MATERIALS

19-11.02A Backfill Material

Backfill material for soil filled (cellular confinement system) shall be a mix of 50% imported topsoil and 50% compost.

19-11.02A(1) Imported Topsoil

Imported topsoil must comply with section 21-2.02C(3).

19-11.02A(2) Compost

Compost must comply with section 21-2.02K.

19-11.02B Cellular Confinement System

Cellular confinement system must be formed from polyethylene in a three-dimensional cellular honeycomb structure. Cell dimensions to be shown on plans.

Cellular confinement system must include all anchoring components per manufacturer's specifications. Cellular confinement system must have following properties:

Cellular Confinement System	
Material	Polyethylene polymer with no heavy metal content
Color	Tan
Sheet Thickness	50 mil -5% +10% before texturing
Section Weight	75.2 lbs
Cell Area	71.3 in^2 (nominal area +/-1%)
Cell Depth	3 in
Cell Dimension	11.3 in x 12.6 in (nominal +/-10%)
Cell Seam Strength	240 lbf
Environmental Stress Crack Resistance (ESCR)	5000 hours (min)

19-11.02C Anchor Bars

Anchor bars shall consist of ASTM Designation A 615, Grade 40, No. 4 reinforcement bar.

19-11.03 CONSTRUCTION

19-11.03A Site Preparation

Clear areas to receive cellular confinement systems of trash and debris. Weeds must be removed to the ground level. Dispose of trash, debris, and removed weeds. After clearing, excavate the areas to receive cellular confinement systems to the depth shown, grade to a smooth surface, and compact to not less than 85% relative compaction.

19-11.03B Installation

Soil confinement system shall be installed as shown on plans, and per cellular confinement system manufacturer's recommendations for surface stabilization, erosion control and the following:

1. Areas to receive soil confinement systems shall be excavated to a depth of 3 inches.

2. Rocks, litter and any unsuitable material encountered shall be removed and the area graded smooth to accommodate the soil confinement system.

3. Cellular panels must be expanded into position on the slope and anchored per manufacturer's specification.

4. Cellular panels sections must be secured with positive locking devices through material slots both end-to-end and side to side, providing a secure load transfer connection.

5. Cellular panels across ditch shall have panel material in continual contact to finished grade, and have a minimum of one panel cell or more in ditch, as per manufacturer's specifications.

6. Backfill material shall be pre-mixed of 50% compost and imported topsoil.

7. Backfill material shall be uniformly placed and spread and compacted to 3 inches just covering the top of the cellular confinement system. Backfill material shall be placed such that no portion of the cellular confinement system is exposed.

8. After applying backfill material, the Contractor must water settle the total thickness of backfill material to compact backfill material. Compact backfill material with a plate tamper or the back of a smooth bucket of the backfill material placement equipment as recommended by the manufacturer of the cellular confinement system.

19-11.04 PAYMENT

Soil filled (cellular confinement system) is measured parallel to the ground surface excluding overlaps.

Addendum No. 7

Dear Contractor:

This addendum is being issued to the contract for CONSTRUCTION ON STATE HIGHWAY IN EL DORADO COUNTY NEAR COLOMA FROM 0.1 MILE EAST OF MARSHALL ROAD TO 0.3 MILE EAST OF LOTUS ROAD, to revise the project plans, the *Notice to Bidders and Special Provisions*, the *Bid* book and the Federal Minimum Wages with Modification Number 10 dated 08/26/2016.

Submit bids for this work with the understanding and full consideration of this addendum. The revisions declared in this addendum are an essential part of the contract.

Bids for this work will be opened on Wednesday, October 12, 2016.

Project plan sheets 100, 105, 175, 181, 182, 183 and 186 are replaced and attached for substitution for the like-numbered sheets.

In the Special Provisions, Section 51-1.01A, the following paragraph is added before the first paragraph:

"Replace the 7th item in the list in the 2nd paragraph of section 51-1.01A with:

7. Pipe culvert headwalls, endwalls, and wingwalls"

In the Special Provisions, Section 51-1.01A, the following is added to the second paragraph:

"8. Pipe culvert headwalls and endwalls for a pipe with a diameter of less than 5 feet"

In the Special Provisions, Section 77-2.02N, the following paragraph is added:

"Existing asbestos concrete pipelines located within one foot of the grading plane must be removed and disposed of per all applicable regulations and these contract specifications. The quantity estimated on the bid item list includes sections of the existing mainline (as indicated on the plans) and sections to be removed and disposed of for tie-ins. Locate the existing pipeline and determine which sections require removal and disposal."

Project ID 0300000078
ACST-P049(169)

In the Special Provisions, Section 78-4.03B(2)(b), the first paragraph is replaced as follows:

"Completed painted surfaces must closely resemble the mottling, shades, flecking, and veining of the rock pilaster portion of the fence in Coloma State Park along the west side of Route 49 in El Dorado County at postmile 23.35."

In the Special Provisions, Section 78-4.03B(2)(c), the first paragraph is replaced as follows:

"Completed painted surfaces must closely resemble the mottling, shades, flecking, and veining of the rock pilaster portion of the fence in Coloma State Park along the west side of Route 49 in El Dorado County at postmile 23.35."

In the Special Provisions, Section 83, "RAILINGS AND BARRIERS," the following paragraph is added after the last paragraph:

"Add to section 83-2.07A:

Clean and paint the exposed galvanized surfaces under section 59-3."

In the *Bid* book, in the "Bid Item List," Items 143 and 144 are replaced.

To *Bid* book holders:

Inquiries or questions in regard to this addendum must be communicated as a bidder inquiry and must be made as noted in the *Notice to Bidders* section of the *Notice to Bidders and Special Provisions.*

Submit the *Bid* book as described in the *Electronic Bidding Guide* at the Bidders' Exchange website.

http://www.dot.ca.gov/hq/esc/oe/electronic_bidding/electronic_bidding.html

Inform subcontractors and suppliers as necessary.

This addendum, EBS addendum file, and attachments are available for the Contractors' download on the Web site:

http://www.dot.ca.gov/hq/esc/oe/project_ads_addenda/03/03-0F3104

If you are not a *Bid* book holder, but request a book to bid on this project, you must comply with the requirements of this letter before submitting your bid.

Sincerely,

for AMARJEET BENIPAL
District Director

Caltrans Project 03-0F3104
DBE Participation Good Faith Efforts

03-0F3104 Attachment I

9. Include additional data to support a demonstration of good faith efforts.

Myers has created a DBE Linkedin group that DBE's, Contractors and other agencies are now using to promote opportunities. You may verify this information at the following link, https://www.linkedin.com/grp/home?gid=8133837&sort=RECENT . We attend several DBE outreach meetings put on by Caltrans and other agencies during the year and we have a section of our website dedicated to DBE/SBE/DVBE firms, http://www.myers-sons.com/pages/dbesbedvbe-outreach.
