DBE "Good Faith Effort" Documentation

State of CA, Dept of Transportation
CALTRANS
Construct Roundabout at Intersection in Prather,
Fresno County, Route 168
Contract #06-0L3404, Due 5/24/16

American Paving Company
315 N. Thorne Ave
Fresno, CA 93657

State of CA, CALTRANS DBE Program Good Faith Effort Summary

Outreach Efforts Summary / Narrative:
American Paving Company identified the appropriate search engine to search for DBE subcontractors/suppliers for Construct Roundabout at Intersection in Prather, Fresno County, Route 168. American Paving attempted to post on the US Dept of Commerce MBDA bid matching system but due to website maintenance the system isn't available. American Paving sent solicitation to Lamar Heystak with US MBDA who agreed to distribute to their constituents. When US Dept of Commerce MBDA distributes the opportunity those companies are notified of the bid opportunity and bid information. It cannot be determined how many of the companies that were matches are certified as DBE companies, however, the companies that were considered matches are either MBE or WBE companies that do work in the specified region and would potentially be certified and/or eligible to be certified as a DBE contractor. American Paving also posted on the US SBA Subnet. US SBA Subnet's exposure is unknown but it is an industry practice to advertise DBE projects on the US SBA Subnet. American Paving also advertised in two other Eldridge Bid Reporter publications that outreach to DBEs. Eldridge Bid Reporter publications have 3000+ distribution made up of SBE/DVBE & DBEs. DBEs are roughly 50% of the distribution. American Paving then searched the appropriate DBE databases (CUCP & US SBA) to identify potential DBE subcontractors/suppliers that performed the specified services. The American Paving list contained 287 potential subcontractors/suppliers. The list includes DBE companies from the CALTRANS Opt-in link that had opted-in to the project for solicitation. American Paving sent direct solicitations by fax to 81 potential subcontractors/suppliers that were located in a reasonable proximity to the project. Then American Paving sent direct email solicitations to **ALL 287** potential subcontractors/suppliers. Of those 287 potential subcontractors/suppliers, there were 30 emails that bounced (bad emails) and 1 companies declined the opportunity by unsubscribing to the email list. American Paving followed up by email at a later date with **ALL 287** potential subcontractors and by phone with the DBE companies that were in close proximity of the project, as wells as, stayed in close contact with DBEs that had questions or had trouble obtaining the bid package.
included:

- Contacted local DBE assistance organizations to obtain a DBE list.
- Solicited Potential DBE Subcontractors/suppiers by fax/email
