- 3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
- 4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
- 5) All teeth over one complete set will be charge to the contractor.
- 6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
- 7) In the event there is an increase in the cost of fuel of more than \$0.50 per gallon during the performance of this contract, ABSL will be entitled to a \$75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.

- 10) This proposal to be attached and made part of any and all resulting contracts.
- 11) The above price does not include permits, fees, bonding, state or local taxes.
- 12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
- 13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
- 14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence.
- 15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
- 16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

For any of you that are going to be bidding public works in the future or if you have ongoing public works projects anything purchased from us will count toward your DBE goal achievements. If you are a public entity which uses products we sell we can also be counted toward your increased DBE participation. We are a DBE supplier and any business done with us can help many of you to increase your DBE participation on the project DBE goals. The Construction Zone received certification through The California Department of Transportation CUCP Program which is recognized statewide.

All of our prices are competitive with the rest of the vendors in our market sector. So, please contact us immediately for any upcoming projects you may want us to bid on so we can help you make your goals and also help you be low bidder. We stock all items in house and can deliver right to your job site or yard. Just think about how much money you can dedicate to your DBE goals when you buy from us instead of a large box store, like Whitecap or Home Depot. The best part is that it won't even cost you any more \$, because of our competitive pricing.

As always we are here to provide you with all of the products you need with outstanding customer service.

Our DBE Certification Firm ID is 43059 and a copy of our certificate is attached. Feel free to contact us with questions or product needs. Also, be advised that we are in the process of adding additional work codes to our certification and we are available Statewide.

Uneasy feelings about 'the Greatest,' Muhammad Ali

Continued from page 3

When I visited the room where Ali's bodyguards and others were assembled on the afternoon before the fight, the air was thick with gloom despite the trophies on display to boost Ali's confidence. They weren't sure Ali could get past Spinks. Today, I think Ali had grown tired of the ring.

But even with all of my hero worship, I must have had an inkling of the disaster ahead when I ended the Village Voice piece by predicting that Ali would fight Larry Holmes — and lose. I watched that 1980 fight from the Academy of Music on 14th Street in New York. Before the match, the audience cheered as footage of Ali's earlier bouts was shown. This was followed by silence after Holmes gave Ali the beating of his life.

Some say Ali might have died years ago without the intervention of Lonnie Ali, who had a

crush on the champion since childhood. She went to Los Angeles with the permission of Ali's then-wife, Veronica, to assist the champion in his decline. Ali sent her to business school and she used her knowledge to bring in cash that would make his life as comfortable as possible. She is the most controversial person in my book, accused of keeping members of the champion's entourage away from the ailing fighter.

Though some consider her to be a manipulative Lady Macbeth and a schemer, Lonnie Ali cared for Muhammad Ali for more than a decade. He outlived half of the people whom I interviewed for the book that I began writing in 2003. Most of them were concerned about Ali's health.

Ishmael Reed is the author of "The Complete Ali" (Baraka Books, 2015).

Diversity on the Move

The Workforce Collaborative

Since 2001, TWC has been serving the Oakland/East Bay community.

Incorporated in 2001, the mission of The Workforce Collaborative (TWC) is to enable unemployed, underemployed, and low-income persons in the East Bay to reach self-sufficiency through employment.

The goal of The Workforce Collaborative is to provide opportunities for people at the margins of society to realize personal, economic and social development through participation in education, training, employment, and support services.

The program addresses itself in particular to those clients who, for the most part, are unsuccessful in traditional employment assistance programs due to long-term unemployment, lack of skills, and other issues.

Participants are provided with employment and training services covering four major areas: professional development, skills training, employment, and post employment.

Our Services

The following are some of the services offered by TWC:

Professional development: Potential workers must demonstrate a basic level of professional development – people skills (social, negotiation, leadership, teamwork, and cultural diversity) and personal qualities (self-esteem, self-management, and responsibility). Establishing these foundation skills also enhances a worker's ability to acquire higher education and training skills further down their career path.

Skills Training: Targeted sector job training offers a unique opportunity for participants to learn skills in a variety of areas utilizing, classroom training, hands-on and work experience, job shadowing, and on the job training.

Employment: TWC Participants are offered a network of employment services including: personal counseling, employment workshops, job referrals, job search, and job placement assistance.

Post Employment: We also provide referrals, stabilization services and material support to assist participants with job retention after obtaining employment.

History

The Workforce Collaborative (TWC) was incorporated in 2001. Its' creation was a result of the closure and reuse process of the Oakland Army Base.

During the previous six years, local homeless providers, in partnership with other community-based organizations and private entities, advocated for reuse plans that would bring economic benefit to Oakland and the East Bay's low-income residents.

Much like the base reuse plan for the former Alameda Naval Air Station which spawned the Alameda Point Collaborative, the Oakland Army Base reuse process led to The Workforce Collaborative.

In 2001, The Workforce Collaborative, and other community-based organizations, obtained temporary leases at the closed Oakland Army Base and began providing critical supportive services to the Oakland/East Bay community.
