## General Information

This site is provided by Caltrans as a required location for the stockpiling of AC grindings, which will be salvaged from the AC Surfacing Project on highway 273, in accordance with section 15-2.04 of the standard specifications. This site is located on an undeveloped lot that is owned and operated by Shasta County. Upon delivery to this site the AC grindings will become the property of Shasta County.

Upon award of the contract, the contractor will coordinate with Shasta County regarding any operational requirements at least 48 hours prior to the beginning of work.

Shasta County Public Works Contact Information:

- Robert Atkinson, Road Maintenance Supervisor (District 1, Redding) – (530) 225-5305
- Jason Eilts, Road Maintenance Lead Worker - (530) 225-5305

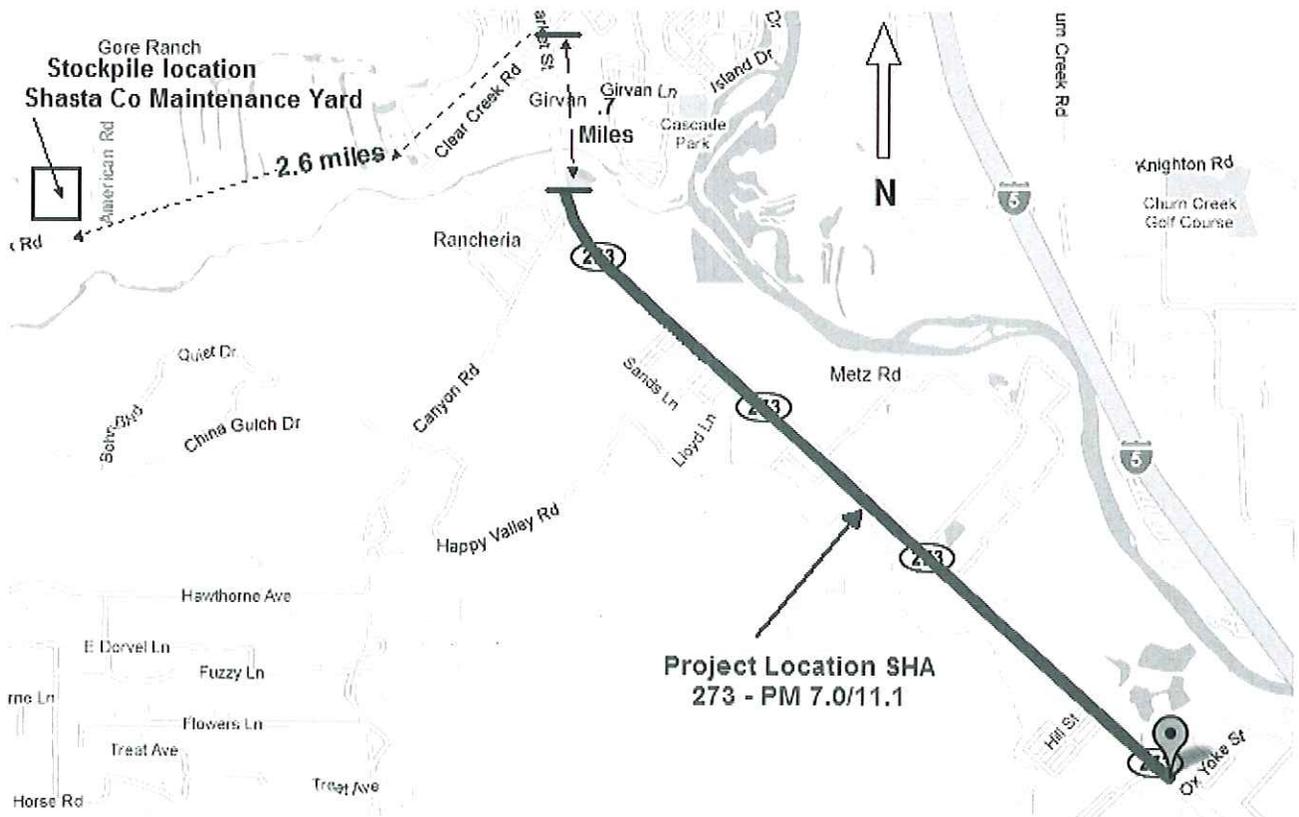

Section 7-1.13 of the Standard Specifications will apply all of the project's disposal, including this site.

The contractor bears all liability for damage to haul vehicles and any county facility or equipment damaged by the contractor's use of the site. The State assumes no liability for damage to contractor's equipment. Hauling AC grindings will be included in the cost of the contract price for cold plain asphalt concrete.

The contractor should anticipate being responsible for the following provisions:

- Control of gates as needed.
- Dust abatement as needed.
- End dumping into consolidated area as directed by Shasta County.
